What You Can Do	What You Can't Do
Print and use in your own classroom.	Copy, email it, or share it with others without permission.
Send home a copy with your own students' parents for home use.	Post it electronically on a website, wiki, or blog without my permission, even with a link back to the original.
Refer friends to my blog or digital store where you downloaded it so they can buy/download their own copy.	Claim this product or anything it contains as your own work.
Post a link back to the original download site on a wiki or blog.	Use any pictures or clip art from this product without permission outside of your own classroom.

Don't forget to leave feedback on this product on TPT or on the blog!

COVID-19

I hear a lot about COVID-19.
Sometimes it makes me feel nervous.

I need to remember what I know about COVID-19 so I feel better.

Sometimes COVID-19 is called the Coronavirus. It is a type of virus.

A virus is a tiny group of cells
that makes people sick.

COVID-19 can make kids sick.
Kids can also carry the virus
and make older people sick.

COVID-19 gives people a fever.

COVID-19 gives people a runny nose and a sore throat.

COVID-19 makes people cough a lot and makes it hard to breathe.

To keep everyone in the
community safe, I need to help out.

I can help by washing my hands
a lot and for at least 30 seconds.

I can help by coughing and sneezing in my elbow or in a tissue.

I can help by social distancing.
That means keeping away from people
when I am out in the community.

I can help to keep the virus from spreading so people don't get sick.

COVID-19 makes a lot of people
nervous and that is okay.

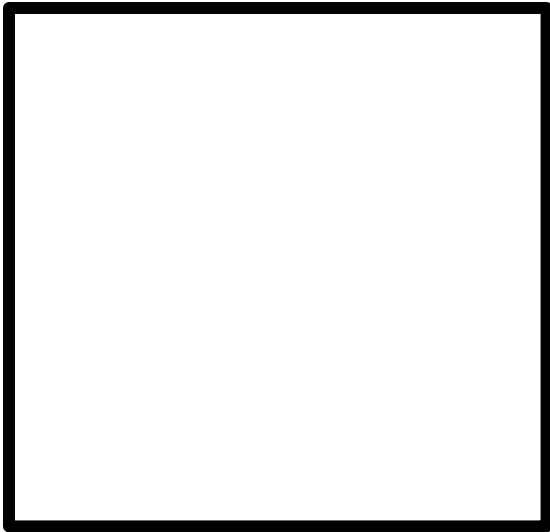

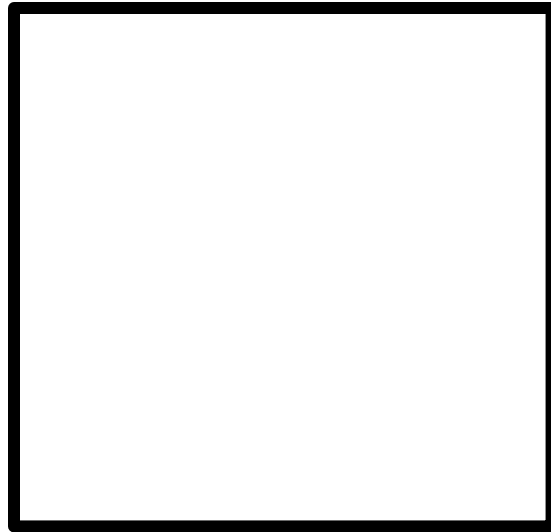

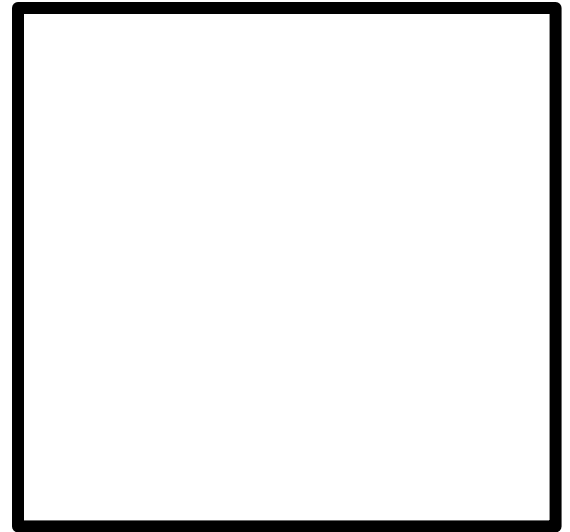

Now that I know more about
COVID-19, I feel much better.

What can happen to people who get COVID-19?

How can I help stop COVID-19 from making people sick?
