

COVID-19 Dashboard

To keep the public informed, Nantucket Public Schools (NPS) will share this updated COVID-19 Dashboard weekly on Monday morning. Due to state and federal privacy laws, no personal information will be given.

When NPS administration and/or health services receive notification of a positive COVID-19 case, they collaborate with the public health department and Nantucket Cottage Hospital to undertake community- based contact tracing. NPS will notify school-based close contacts* with necessary information and instructions.

*Close contacts (*those who have been within 6 feet of a positive COVID-19 case for a total of 15 or more minutes while the person was infectious*) within the school community have been identified, contacted, and instructed in quarantine requirements by the school nurses.

Data as of January 19, 2021

196	Total # of island positive cases in last 14 days (per NCH)
52	Total # of island positive cases in last 7 days (per NCH)
