

STAFF HEALTH AND SAFETY

Through its overall safety program and various policies pertaining to school personnel, the Committee will seek to assure the safety of employees during their working hours and assist them in the maintenance of good health.

Any employee whose health is thought to be inimical to the welfare of pupils or employees may be required by the School Committee at any time to submit to a health examination by a physician or surgeon. The expense shall be borne by the school district.

School employees, their families and members of their household are eligible to use the confidential services provided by the municipality's Employee Assistance Program (EAP).
