# How to determine the MAC address of your iPad

This brief tutorial will show you how to find the Wi-Fi and Bluetooth MAC addresses on your iPad.

1. Start out by selecting **Settings** from your home screen

2. Select **General** from the list on the left side of the Settings window, and then **About** from the column on the right side.

3. Here you'll find the MAC addresses for both the Wi-Fi and Bluetooth devices in your iPad
