

Dear Parent/Guardian,

The Nantucket Public Schools has launched a new student registration and verification application in the Aspen Student Information System. As a parent of student(s) in the school district you will be verifying the data in your student(s) records. This is in place of the annual forms for demographic, contact and medical data as well as the blanket field trip form, media release form and network account agreement. Please note, that even if you student(s) data is correct you must still confirm the three forms and click submit at the end. This will send your verification to Aspen and notify the school office that you have completed to process.

To log in, Log into Aspen with your parent account, click on the link on the Pages tab and then click on the link below. The new software will open in its own window. If you have difficulty logging in, have forgotten your login credentials or don't see the Family Connection link on your Pages page in the Aspen Parent Portal please submit a support ticket to the Aspen Help Desk. This can be reached by navigating to Aspen from any of the school pages, selecting Aspen from the Parent Information tab and selecting Aspen Help Desk or clicking on this [link](#).
